

> Hi,

> I hope this message finds you well. I'm writing regarding my opposition to the proposed cell tower on Granite Springs Road. My homes location is 2936 Curry street, right off of Granite springs. We have 2 small child and we specifically bought this home in this location away from any cell towers. I'm currently undergoing chemotherapy for non-hormone related non-genetic breast cancer. People don't realize there are real health hazards correlated with these cell towers. I would not be comfortable living near one. Hopefully everyone comes together to object. I know it has come to my attention with about 15 families so far who are opposed. Please let me know if there are any further steps I can take.
