Re: Proposed Amendment to Chapter 300-81.4: "Solar Power Generation Systems and Facilities"

Dear Members of the Town Board of Yorktown,

My name is Tony Dedvukaj, and I reside at 7 Nathalie Court. My family and I have lived adjacent to the proposed agrihood development for the past 30 years. This development includes a six-home subdivision, a public trailhead, and a large-scale ground mounted solar installation. I have had several informative discussions with Mr. Colangelo regarding the specifics of this project, and he has clarified the anticipated changes and community benefits. Furthermore, I was present during the balloon testing and can confirm that the ground-mounted solar panels were not visible from my backyard. I understand that the currently heavily wooded area will benefit from additional screening to ensure year-round visual obstruction of the solar ground mounts, which will also further screen the trail system.

As a proponent of community solar, I believe it is preferable for such installations to be discreetly located rather than placed in highly visible commercial thoroughfares. My family and I fully endorse this project and respectfully request that you reconsider the moratorium to allow for well-considered projects like this to proceed within our community.

Thank you for your time and consideration of this matter.

Sincerely,

Nua "Tony" Dedvukaj
