

Q&A No. 1  
Field Home Adaptive Reuse RFP

1. Does the Town have funding in place to proceed with Track 3 design services including tasks such as master planning, assessments, community outreach, visioning, cost analysis, and feasibility studies? [The Town has funding in place for design services which the town will allocate at their discretion to the tasks they deem appropriate in accordance with any accepted proposals.](#)
2. Is the town willing to continue to operate the property long term? [The Town issued this RFP, in part, with the intention to reduce or eliminate its role and responsibility in the long term disposition of the building and grounds, however, the Town is open-minded and looking forward to entertaining all viable proposals in order to find the optimum solution.](#)
3. Is it assumed that programming of the property would only be by third party lessees or a buyer? Is there an interest and capacity for the Town actively program part or all of the property? [The Town will be involved in the planning and approval of the selected proposal and expects its involvement to be broad level and conceptual, however, the Town is open and looking forward to viable proposals and willing to assist to achieve success of the project.](#)
